Set on a 1,500 m² plot, the project includes a generous construction area of 488 m² across three levels: ground floor, first floor, and basement. The villa will be delivered fully turnkey, but early buyers have the unique advantage of customising layout, finishes, and key features, creating a bespoke home that reflects their personal vision and lifestyle.

The design prioritises clean lines, natural light, and seamless indoor-outdoor flow, with spacious living areas opening directly to sun-soaked terraces and a stunning infinity-edge pool. Interior spaces will be finished to the highest standard, incorporating modern comforts and sustainable technologies.

Key Features Include:

Underfloor heating (water-based) on the ground and first floors

Ducted air conditioning system, hidden in false ceilings

Central vacuum system on all levels

Private elevator connecting basement to first floor

Electric vehicle and e-bike charging stations (ground floor, basement, and first floor)
