The residential complex "Scarab Zornitsa 3" is a new stage in the development of one of the most pleasant areas of Burgas. The project combines modern architecture, functional layouts and the comfort of an urban environment, creating a harmonious space for living and relaxing.

The complex is located in the green and peaceful Zornitsa quarter, close to the Sea Garden and key amenities such as shops, schools, kindergartens and transport stops. There are medical facilities and sports complexes nearby, which makes the location convenient for families and active people.

The building includes five residential floors with carefully designed apartments ranging from compact double—pile to spacious three-bedroom apartments. Garages and parking spaces are provided in the underground level. The construction uses high-quality, certified European materials that ensure energy efficiency and durability.

"Scarab Zornitsa 3" is an investment in comfort and tranquility. The limited supply of new construction in

the area increases its value over time.

Construction started in August 2025, and completion is planned in 24 months.

A modern house in the green heart of Burgas is a space created for life, family and the future.
