The home is equipped with surveillance cameras for security.

The smallholding also offers two large sheds with multiple storage rooms, fertilizer and pesticide rooms, and two cold rooms (4 × 6 m² and 3 × 4 m²).

For horticultural production, you'll find two large greenhouses with dedicated fertilizer tank systems, 3 × 6 ha pivots with a large fertilizer tank and stirrer, plus 4 ha under drip irrigation. Power for the pivots is supplied by a solar system to ensure efficient and sustainable operations.
