Main House

The total build is around 585 m<sup>2</sup>, plus terraces.

The design unfolds in a single storey of long white volumes that open seamlessly to the surrounding countryside. Three or Four bedrooms (dependant upon preferences), each with its own en-suite bathroom, offer calm and privacy. Natural textures — wood, stone, and limewash — link the architecture to the landscape, while large glass openings invite the forest inside.

### Lower Ground Level

A full lower floor provides generous space for a gym, cinema, studio, or additional guest suites. With over 300 m<sup>2</sup> of flexible area, it allows the future owner to adapt the layout to personal needs — wellness, work, or leisure.

### Outdoor Areas

The house connects to terraces of around 200 m<sup>2</sup> and a swimming pool of 30 m<sup>2</sup> that extend along the southern façade. Pergolas in pale wood create patterns of shade and light, and the setting, surrounded by mature pines and silence, ensures a sense of total retreat.
