Informação adicional:

Designed in 1977 by a visionary architect, this unique house stands out for its circular architecture, designed to take full advantage of the four exposures and provide constant light throughout the day. With approximately 260 m² of living space above a crawl space, the property offers generous volumes and a fluid layout. The reception rooms, which open onto the garden through large double-glazed bay windows, create a permanent connection between the interior and exterior: a warm and elegant 50 m² Havana-style lounge, a bright summer lounge, a convivial summer dining room, ideal for entertaining. The house currently comprises three bedrooms, including a master bedroom with en-suite shower room, two bedrooms, a shower room and two WCs, with the possibility of creating two further bedrooms. A separate two-room apartment completes the property, perfect for entertaining family and friends, creating a professional space or generating rental income. Set on 1,200 m² of wooded land, part of which is buildable, the property enjoys a rare environment: An unusual and bright property, ideal for lovers of 1970s architecture looking for a unique place to live that combines nature, space and potential. Land suitable for a swimming pool.
