About the Area

Roatan is a Caribbean Island located 40 miles off the Honduran coast. English is the primary language spoken. It now offers unique development opportunities in the Medical Tourism, Residential, and Hospitality markets. With direct flights from Houston, Atlanta, Miami, Toronto, and New Orleans and two new cruise ship port developments, it is easy to get to and offers many advantages over other tropical destinations. Development costs are very low. Quality construction materials are readily available. (Investor tax-free status is available. Inexpensive medical care (like dental, cosmetic, wellness, and anti-aging specialties) is a marketable commodity.

Only a short flight from the US and Canada, it has seen continual growth in tourism numbers yearly. Hotel lodging and condo prices have soared, now comparable to those of Hawaii. With an average daily temperature of 84 degrees year round and evening temperatures in the 70's, the island is cooled with gentle trade winds and advantageously is located out of the hurricane belt. Crystal blue waters, white sands and a reef just offshore provide snorkeling, diving and swimming unmatched elsewhere. Pristine Bay, a Pete Dye golf course is just few miles from the project property. Banks, shops, restaurants and more are just a few minutes away in French Harbour. The international airport is 10 miles away.

Honduras is a Central American country with Caribbean Sea coastlines to the north and the Pacific Ocean to the south. In the tropical rainforest near Guatemala, the ancient Mayan ceremonial site Copán has stone-carved hieroglyphics and stelae, tall stone monuments. In the Caribbean Sea are the Bay Islands, a diving destination that's part of the 1,000 km-long Mesoamerican Barrier Reef.

White beaches fringed by the world's second-largest barrier reef, jungle-covered mountains cut by raft riding white-water rivers, and home to an astounding number of bird species, exquisite Maya ruins, colonial, cobblestone villages, fresh seafood grilled on the beach... Yes, all this is found in Honduras..
