Informação adicional:

An exceptional opportunity to acquire a brand-new contemporary villa currently under construction in the prestigious Monte Lemos area of Praia da Luz. Designed to embrace the natural beauty of the Western Algarve, this three-bedroom residence combines architectural vision, refined materials, and modern engineering to create a sophisticated coastal home with lasting appeal.

The villa has been carefully conceived to maximise natural light, space, and connection with the surrounding landscape. Floor-to-ceiling glazing, generous ceiling heights, and expansive terraces will create a seamless flow between elegant interiors and outdoor living areas, framing views towards the Atlantic and capturing the essence of the Algarve lifestyle.

Designed for both comfort and contemporary living, the completed residence will feature three en-suite bedrooms, including a private master suite, an open-plan living and dining area with a fully equipped kitchen, private swimming pool, landscaped gardens, rooftop terrace, and secure garage with private car elevator. Premium finishes, underfloor heating, microcement flooring, and solar energy solutions reflect a commitment to quality, efficiency, and thoughtful design.

Located within easy reach of the beaches and amenities of Praia da Luz, with the historic town of Lagos

just minutes away, the villa offers the perfect balance of tranquillity and convenience. Faro International Airport is less than an hours drive, ensuring easy access for international owners and guests.

Currently under construction, this is a rare opportunity to secure a newly built contemporary residence in one of the Western Algarves most sought-after locations. As the vision takes shape, buyers have the opportunity to become part of the journey towards a home where architecture, craftsmanship, and coastal living are brought together in perfect balance.

A distinctive Algarve residence, created for those who appreciate thoughtful design, exceptional quality, and life by the Ocean.

Talk to us about the prospect of adding some finishing touches while there is still time.

Technical Specification
