Summer months activities are really entertaining and Javea does lots of things for the young ones as well.

According to a scientific study carried out in the 90s, Javea was considered to be the first best microclimate in the world, followed by Rio de Janeiro and to be honest you can enjoy a great temperature

all year round with an average that ranges from around 18°C.

This goes to show as Jávea is chosen by many to spend their holidays here and many to live all year round, which means not like a lot of coastal areas it's always full of life even in the winter months.
