Описание:

A modern apartment complex with extensive facilities will be built in the centre of Calpe. Planned completion: Q4 2027. Penthouses with 1 bedroom and 1 bathroom. The price is a starting price. Thanks to its central location, almost everything Calpe has to offer is within walking distance, including shops, the beach, supermarkets, restaurants, etc.

Description

The 1-bedroom penthouses consist of a living-dining room with open kitchen, one bedroom, one bathroom and a terrace. The property is finished with low-maintenance materials and modern installations, including double glazing, a security door, heat pump and air conditioning via an integrated duct system.

The kitchen is fully equipped with appliances from Bosch or a similar quality brand. Pre-installation for charging electric vehicles.

The building has seven floors and is equipped with a lift. Limited sea views are possible from the top floor. Not all penthouses are located on the top floor due to the shape of the building. Communal facilities: outdoor swimming pool with sun terrace, indoor swimming pool with spa, gym, co-working space, storage, parking and 24-hour security. The energy label A emphasises the low energy consumption and efficient construction.
