Описание:	

Bright 19th-century space under residential recovery with mezzanine potential, for sale in Montepulciano, Siena.

A short distance from the historic center, we exclusively offer a prestigious apartment of approximately 1,087 sq ft (101 sq m) set within a context of exceptional architectural value. The position is private and panoramic, harmoniously integrated into the Valdichiana landscape. The complex, known as Antico Borgo, is the result of a refined restoration completed in 2016 of the original 19th-century hospital—a traditional terracotta brick building protected by the Fine Arts Ministry.

Today, the structure represents a vibrant multipurpose hub, combining exclusive residential units with prominent professional firms and services. The property, located on the first floor with private access via a side entrance, is distinguished by high ceilings with exposed wooden beams and large windows that flood the rooms with natural light. The transformation project allows for the creation of a modern living area, kitchen, bedrooms, and bathroom, with the added value of being able to construct a mezzanine (loft) covering up to one-third of the current surface area.

The property includes provisions for air conditioning and an alarm system, an armored door, and a valuable covered parking space (carport). Please note that the renovation project is managed by an investment fund; therefore, the purchase is subject to VAT at 4% for primary residences and VAT at 10% for second homes. The property will be delivered in shell condition, with internal partition walls already constructed and all systems (plumbing/electrical) pre-installed. A unique opportunity for those seeking historic charm combined with contemporary functionality.

PROPERTY Ref: MTP3509_L24B
