Açıklama:	

We present an exceptional investment opportunity in Betoño, consisting of two industrial warehouses joined together, totalling 626 m² of surface area. This property, available for 280,000, is ideal for companies looking to expand their operational capacity in a large space and with high-value technical features.

The warehouses, each measuring 30m long by 10m wide, offer a clear height of 5.7m, creating a spacious and comfortable working environment, suitable for a wide variety of industrial and storage activities. A distinctive element of this property are the two overhead cranes installed, each with a capacity of 3.2 tons, which facilitates the handling of heavy materials and improves efficiency in production or storage processes.

In addition, the three-phase electrical installation guarantees an adequate distribution of energy for high-consumption machinery and equipment, essential for industrial operations of any size. The presence of changing rooms, shower and toilet provides additional amenities for staff, ensuring an optimal working environment.

A notable aspect is the inclusion of a 133 m² garden, a green space that offers a recreation area for employees and contributes to a more pleasant and healthy work environment.
