Totaling 114 acres, these three plots of Belize agriculture land are ideal for a small farm. Located just off the recently upgraded Coastal Plain Highway and with good access road this location has access to population centers in the south and Belize City to the north.

Although off grid, there is a creek running along the western border and solar with a back up generator is a good option for electricity. Shallow wells and rain water collection are also options for water sources.

Upgrading of the Coastal Road to a major highway is stimulating economic activities in the area. Small farming is the best use for this property as food demand grows in the country and region. This can be combined with tourism. The Coastal Plain Highway is scenic and has many caves and natural features that are now being used to attract nature lovers and others looking for unique experiences.
