We offer a well-located plot of 1,056 m², located in Dobrota, just about 130 meters from the sea.

The plot is rectangular in shape, with convenient access, and a wide asphalt road runs along the entire lower border.

The plot offers a direct and unobstructed view of the sea and the slopes of Mount Vrmac.

The plot is an independent urban unit in a residential zone (SMG), ready for construction, with all the necessary documentation.

Urban planning parameters:

Development density coefficient: 1 — maximum gross area of the object up to 1,059 m²

Number of floors: first floor + second floor + attic

All connections to utilities and transport infrastructure at the border of the plot.

Behind the plot there is a green area untouched by nature, and below there are modern hotels and residential buildings.
