A company that owns two high-performance hydropower plants is for sale. The plants were commissioned in 2017 and 2021 and are located in the entity of Srpska, Bosnia and Herzegovina. Both plants use modern Pelton turbine technology and are designed for high efficiency with minimal operating costs.

The concessions for both plants have a term of 50 years, which ensures long-term planning and yield security. The possible integration of battery storage can further optimize economic efficiency, as the energy can be sold at the best tariff times.

Plant 1:
Output: 850 kW
Turbine type: Pelton
