Açıklama:

The solar park is a large-scale photovoltaic plant in the Bileća region (Republic of Srpska, Bosnia-Herzegovina) with a planned total output of 335 MWp and a projected annual electricity generation of 642 GWh. The grid connection will be made via the existing 400 kV Gacko-Trebinje high-voltage line.

The government of the Republic of Srpska is currently granting a 30-year concession, with the option to extend for a further 20 years. The site offers optimal solar technology conditions on an area of around 435.5 hectares.
