Açıklama:	

A company is for sale that owns a hydropower plant that was commissioned in 2017. The plant is located in Bosnia and Herzegovina (Federation) and is characterized by high efficiency and low operating costs.

The concession covers a land area of approx. 10,000 m², on which additional investments such as a photovoltaic system can be realized. By combining hydropower and solar energy with accumulators, energy sales can be further optimized at the most favorable tariff times.

Hydropower plant data
Output: 760 kW (2 x 380 kW)
Turbine type: Francis
Pipe length: 1,520 m
Annual production: 1.7 - 2.1 million kWh
Energy trading: Via the EU exchange
