Açıklama:

The Dargelin wind farm consists of three Vestas V39 wind turbines, each with a rated output of 500 kW. It was commissioned in 1995. The turbines are located on freehold land and generate an average annual yield of around 2,410,000 kWh (average over the last five years). Marketing is currently taking place on the spot market. A continued operation report has already been commissioned.
