### Açıklama:

Situated in the centre of its own grounds of over 12 hectares stands this superb imposing 13th century stone castle. Within the grounds beside the fishing lake of 6075m2 is another stone building which has been converted into 3 gites.

This castle stands as a testament to the architectural splendor of its time. Its majestic towers, grand facades and intricate detailing evoke a sense of historical elegance and transports you back in time. Each stone of this castle whispers tales of knights, nobles and centuries gone by, inviting you to immerse yourself in its storied past.

Entering the grounds through a monumental arched gate you travel to the castle and enter through the 'porte cochère' just like the middle ages.

Entering the castle you arrive into a very welcoming and stunning entrance hall with the beautiful stone and wooden staircase in front of you and that beautiful and unique cobbled floor that continues through the dining room and kitchen, just wonderful!

To the left of the entrance hall is the most gorgeous dining room (40m2) with double doors that open to the kitchen (37.5m2). Just take a look at that unique stone sink!

The the right of the entrance hall is the library of 38m2, another beautiful room, which then leads to the living room measuring 37m2. In the tower leading from the living room is neat office.

Completing the ground floor is a bedroom (14.5m<sup>2</sup>) with en-suite shower room, a laundry room, a scullery and separate wc.

The majestic staircase from the entrance hall leads you to the first floor which offers 7 wonderful bedrooms each averaging 20m<sup>2</sup>, each with en-suite shower rooms.

The second floor is accessed via the second staircase, once used by the servants of the castle. Here you will find a further 6 bedrooms in need of decoration and a bathroom.

The castle has two forms of heating, an oil system and a recently installed and sophisticated pellet burner system. This gives you the choice of which system to use.

Within the beautiful grounds you will find the carp lake which measures 6075m<sup>2</sup>, parkland style gardens, meadows, wood-land and an orchard. A pretty stone barn is used to house vehicles and equipment. The stone building that has been converted into accommodation offers a honeymoon gite for a couple and 2 three bedroom, two bathroom family gites.

The Correze is home to a rich variety of unspoilt natural scenery. Its hills, lakes, rivers, waterfalls, forests and footpaths make it an ideal location for many outdoor leisure activities such as cycling, walking and canoeing.

The castle is just 8km from the town of Seilhac and 14km from beautiful Uzerche, with its train station with direct services to Paris.
