Exclusive Plot with Uninterrupted Ocean Views – Pico Island

We present a truly exceptional opportunity on Pico Island: an urban plot measuring 1,201 m², located in Caminho de Cima, Ribeiras parish, municipality of Lajes do Pico — one of the most authentic, peaceful, and sought-after areas along the island's southern coast.

Outstanding Building Potential

Situated within a designated urban consolidation area, the property offers excellent development capacity, allowing up to 650 m² of footprint and the construction of two floors, enabling a total gross building area of up to 1,300 m². This creates an ideal setting for single-family or multi-family residential projects, as well as service-related developments, whether for private residence or investment purposes.

Fully Serviced Infrastructure

All essential infrastructure is readily available on site — water, electricity, and internet — ensuring convenience and efficiency throughout the construction process.

Prime Location

The location is simply privileged, featuring open, uninterrupted ocean views within a calm and naturally stunning environment — perfect for those who value quality of life, privacy, and connection with nature.
