This generously sized building plot of 6250 m² is located along the provincial asphalt road that connects the popular seaside resort town of Malia with the charming traditional village of Kراسi.

The land offers scenic views of the surrounding hills and a glimpse of the distant sea. With a gentle terrain and minimal inclination, it presents an excellent opportunity for straightforward development.

The plot comes with a building allowance of up to 245 m², allowing for the construction of either one spacious residence or several smaller residences, built on either one or two floors (maximum building height: 7.5 meters), in addition to basement level, open or covered verandas, and terraces. The basement may be as large as the ground floor and is not included in the 245 m² of buildable area, providing valuable additional space.

There is also the possibility to construct swimming pools, parking spaces or carports, and create landscaped garden areas.

The land has excellent road access and services (electricity, water) are less than 200m away and would be easy to connect to.
