Three story pre sale house with sea views in Chuburna Puerto. This unique three story pre sale house with panoramic views of the sea and the swamp combines luxury comfort and a privileged location just a few steps from the beach.

This architect's job is to create a coastal residence that captures the essence of living on Chuburna beach even if it's not in front of the sea. Their approach expertly combines the functionality of a family home with the essential features expected in a beach house providing residents with a complete coastal living experience.

The house is designed to make the most of the panoramic views and the sea breeze providing a close connection to the coastal environment of Chuburna. Large terraces and balconies are being included that serve as ideal areas for family gatherings and outdoor activities with ocean views.

The architect ensures that the layout of the house is spacious and functional taking into account the daily needs of a family with sufficient storage space and comfortable rooms.

This three story house offers ample space for the family and unlimited possibilities for customization. With high quality finishes and a contemporary design this home is designed to impress.

The ground floor will have automated door parking in the back and front outdoor bar pump room full bathroom laundry room swimming pool the two bedrooms each with its bathroom closet and will have access to the pool.

The second floor will make you fall in love with the incredible view of the sea this floor has a kitchen with a marble island and handmade cedar cabinets the pantry is a large space it will also have a small pool

that will give you the best sunsets living room dining room and to continue taking advantage of the outdoors it has a balcony behind and a terrace in front to fully enjoy the sea breeze.

On the third floor is the main room that will have a view of the swamp and the sea a large terrace and a spectacular balcony.

The services it offers you are city water well water cistern osmosis system pressurized water water heater 500 liter gas tank 6 fans and 4 air conditioners. The connections will be left ready to install solar panels and generator.

This architectural work is the creation of a beach house in Chuburna that not only meets the needs of a family but also captures the essence of living on the coast providing a complete and enriching experience that embraces the natural beauty and relaxed lifestyle of the beach.
