Açıklama:

Pelješac, south side, agricultural land of 10.897m2, in the first row by the sea with direct access to the beach.

It is approx. 60m from the road and the last 60m is a pedestrian approach and it is approx. 1km from the center.

The southern slopes of Pelješac are ideal for growing vines, and due to the proximity of the road, the land is extremely interesting for rural tourism, and as this is one of the few plots with direct access to the pebble beach and near the main road, it is an opportunity that is very rare in offer.

The plot offers a beautiful view of the channel between Pelješac and Korčula, which is a paradise for surfers. With the construction of the Pelješki bridge, this location becomes easier and faster to access, and its value only increases.
