Exclusive panoramic villa in Bellamonte - living in a sunny, quiet location with views of the Dolomites

On the sunny, panoramic high plateau between the Val di Fiemme and the imposing Pale di San Martino, in the renowned village of Bellamonte, we present a charming villa with magnificent views and a spacious garden.

Nestled in extensive, green meadows and surrounded by traditional alpine huts and "tabià", this property offers an exceptional residential location - with a direct view of the impressive peaks of the world-famous Dolomites. Here, nature, tranquillity and exclusivity combine to create a unique living experience.

The property combines privacy and relaxation with proximity to all important facilities. The center of the charming mountain village can be reached in a short distance and offers a good infrastructure all year round, including a grocery store (Cooperativa) and a restaurant/pizzeria that is very popular in the region. During the now significantly extended tourist season - which lasts up to nine months a year - Bellamonte presents itself as lively and well-organized, without losing its authentic and tranquil character.

Upon arrival, the property impresses with a spacious, well-kept entrance plot that is both functional and inviting. From here, you can directly access the basement, which serves as a service area and has a garage, a checkroom, the boiler room, a pantry/storage room, a guest WC with an integrated laundry room and a utility room. An internal staircase conveniently connects this area with the living area and ensures a well thought-out room structure. There is also an external entrance that leads directly to the front terrace and the main entrance to the apartment.

The living level impresses with a warm and inviting atmosphere. High-quality wooden floors and double-glazed windows that were replaced around ten years ago underline the well-kept condition. The room layout is both functional and homely: a practical kitchen, a bathroom with bathtub, a spacious and light-flooded living area with fireplace and a bedroom form the heart of this floor.

An internal staircase leads to the top floor, where there is a hallway, two further bedrooms and a second bathroom with shower and pleasant lighting. The extensive use of wood gives the entire house a cozy, alpine feel. At the same time, the existing room structure opens up interesting possibilities for individual design and - subject to building regulations - also for expansion.

The property is currently habitable and represents an ideal opportunity for buyers who are looking for a residence that can be used immediately and that can gain additional value and comfort through targeted modernization measures. Heating is provided by oil heating with a private tank.

This villa combines location, views and potential - a rare opportunity for lovers of the Dolomites and sophisticated living in the midst of unspoiled nature.

The village is characterized by vast alpine meadows, dense forests and traditional alpine buildings such as

"Tabià" and mountain huts, which give the area its authentic charm. Despite its quiet and natural location, Bellamonte has a solid infrastructure with facilities open all year round, including a grocery store and restaurants serving regional cuisine.

Bellamonte is a popular starting point for numerous leisure activities at any time of year. In summer, hiking and cycling trails through the unspoiled nature are inviting, while in winter, the nearby Alpe Lusia ski area delights with perfectly groomed slopes and modern lifts. Visitors and residents also benefit from the proximity to other well-known ski resorts and excursion destinations in the Dolomites.
