### Açıklama:

Location: Istarska županija, Kršan, Plomin Luka.

A traditional Istrian terraced house is for sale in a natural setting. It was built in 1882, which gives it particular cultural significance. It is located in nature in a completely peaceful and tranquil environment, with several neighbouring houses nearby that are only occasionally occupied. The house consists of a ground floor and an upper floor. On the ground floor there is a room that once served as a living area with a kitchen and a fireplace. On the upper floor there is one bedroom. In front of the house there is a paved terrace covered with grapevines. The yard of approximately 120 m<sup>2</sup> is planted with various plants and flowers, as well as century-old trees that provide natural shade. The house is connected to the electricity grid, but not to water supply or sewage infrastructure. It requires complete renovation.
