ISTRIA, RABAC - Building plot with an open sea view

On the south-eastern coast of Istria, where green hills meet the sea, where nature and heritage come together, there are two towns of similar size but with different but mutually complementary characters - Labin and Rabac, just five kilometers apart. Rabac, due to its white pebble beaches, rich Mediterranean vegetation and crystal clear sea, has been called the pearl of Kvarner. Once a small fishing village, today Rabac is an attractive tourist destination that hides a wealth of cultural events in a network of colorful streets. The green surroundings of Rabac and the picturesque hinterland invite you to adventure, research and recreation throughout the year. Not far from Rabac and Labin in a small settlement by the sea, there is a building plot for sale with an open view of the sea. The land is flat and has a regular shape. It has access from an asphalted road and is supplied with electricity and water to the land. The property is neat. An ideal property for building a family house or holiday villa.
