Açıklama:	

New energy-efficient private houses are for sale in a modern residential development in Jūrmala. The first phase offers 6 houses. Each house has an area of 147.3 m², and the land plot area is 800 m². The layouts of the houses are identical; the properties differ by address, location within the development, and the current stage of construction.

House No. 1 - €330,000 with full interior finishing.

Houses No. 2-6 - €350,000 with white-box finishing.

For houses with white-box finishing, completion of the interior finishing can be ordered separately.

The houses are built on a monolithic reinforced concrete slab using factory-produced Consolis panels with thermal insulation. Heating is provided by a heat pump and water-based underfloor heating, while a comfortable indoor climate throughout the year is ensured by mechanical ventilation with heat recovery. Calculated energy efficiency class - A.

Energy demand for heating - 39 kWh/m² per year.

Calculated total energy consumption - 45 kWh/m² per year.

Ventilation heat recovery during the heating season - 83%.

In addition, 1,600 m² land plots are available in the same location for €100,000. The plots have all necessary utility connections, allowing you to implement your own private house project without the need to build the basic infrastructure yourself or to order it from the developer.

The offer is suitable both for a family looking for a new, modern and energy-efficient home in Jūrmala,

IMLIX

IMLIX Gayrimenkul Pazarı
